

Seedlyng

Teacher and student onboarding

Scan to get started

Submit your class roster, prepare to teach, and help students get started. Seedlyng Financial Education is powered by Assistiv.

Start here seedlyng.com/onboarding/

For teachers

1 Submit your details and roster

At Step 1, enter your full name, contact email, and district or organization. School is optional.

Roster headers: First Name, Last Name, Email.

Use one row and a unique, school-approved email for each student.

Upload a **CSV up to 5 MB** or choose **Copy & paste** and include the header row. Use the blank template on the page if needed.

Review your roster and confirm organization authorization. Choose Submit onboarding details to send your information through Jotform.

Allow at least 24 hours after a complete roster arrives. Check email for setup details or questions. Keep a copy until setup is confirmed.

2 Meet your platform

In **Step 2**, watch **Instructor Platform Walkthrough**. Explore the support videos as needed.

3 Confirm your class is ready

Use the team's instructions to sign in at seedlyng.useassistiv.com. Review your student group and test student access on a school device.

Need help

Email both dwesley@imarlearningsolutions.com and rciarletta@imarlearningsolutions.com

For students

1 Wait for account setup

Your teacher will confirm your account is ready and share your access instructions.

2 Sign in

Go to seedlyng.useassistiv.com and follow those instructions. Use the email associated with your account. If access does not work, tell your teacher.

3 Watch and begin

In the [training library](#), watch **Student Platform Overview** and **Student Study Space Walkthrough**. Then begin the course or activity your teacher assigns.

No student email

Teachers should contact the onboarding team before submitting the roster.
